Subramaniam Ananthakrishnan

Senior Lead Developer at Cimpres India
Navi Mumbai, Maharashtra, India

Summary

Senior Lead Developer with 17 years of experience delivering enterprise software solutions across Ecommerce, Insurance and Supply Chain Management. Experienced in technical leadership, backend and API development, solution design, stakeholder collaboration and production support. Strong hands-on expertise in C#, ASP.NET MVC/Web API, .NET Framework, SQL Server, Node.js, MongoDB and AWS, with practical experience applying OpenAI and LangChain to AI-enabled enterprise applications.

Experience

VistaPrint India

7 years 2 months

Senior Lead Developer

July 2021 - Present (5 years 3 months)

Mumbai

- Partner with global teams and business stakeholders to translate requirements into technical solutions, implementation plans and delivery priorities.
- Design and develop backend services, APIs, reporting workflows and business processes supporting ecommerce and shipping operations.
- Enhanced the VPI Shipping Console to support third-party fulfillers and plant teams across order/shipment operations, reporting, artwork and remittance workflows.
- Develop and maintain VPI Reporting processes for order/item events, B2B/B2C invoice generation, IRN and QR-code generation, and related backend processing.

- Developed Carrier-as-a-Service (CAAS) integrations for Blue Dart, Ecom Express, Shadowfax, Speed Post and Delhivery, bridging Shipping APIs with carrier services.
- Implemented E-Invoicing and GST services covering GSTIN validation, IRN generation and signed QR-code generation.

Lead Developer

August 2019 - July 2021 (2 years)

Mumbai Metropolitan Region

- Designed and initially developed the VPI Shipping Console to support conversion of prepaid shipments to COD.
- Delivered application enhancements based on requirements from plant teams and business stakeholders.

Jardine Lloyd Thompson

Senior Software Engineer

December 2014 - August 2019 (4 years 9 months)

Mumbai

- Handled requirements, business and database logic, reporting, browser compatibility, defect resolution and L1/L2 production support.
- Coordinated with onsite stakeholders and supported non-Asia regions of the product.
